Login Process

First Time Login (New SSO)

1. Select the single sign-on (SSO) enrollment link within the bank's SSO setup email. The **Activate Account** screen appears.
 - If the link has expired due to seven calendar days passing or a subsequent email invalidating the selected link, you will receive the following message on the Activate Account screen: *Your enrollment link has expired. Please contact your financial institution for assistance.*
2. Create your Online Banking ID and password, and then select **Continue**.

3. Review the terms and conditions.
4. Select **I agree**, and then select **Accept** to proceed.
5. Select a watermark image, and then select **Submit**. This image appears at all future logons and on all pages in Online Banking.

Verification Questions (required)

From now on we will monitor your use pattern and if we suspect it is not you logging in we will ask you to answer a few verification questions. Please take a moment to select one question from each of the three drop-down menus. Answers are not case sensitive.

Question One: What is your spouse's middle name?
 Answer: Jane

Question Two: What was the name of your first pet?
 Answer: Buddy

Question Three: Select Question...
 Answer: **What was the make of your first car?**
 What is the first name of the youngest of your siblings?
 What is your youngest sibling's nickname?
 Which state did you first visit (outside the one you were born in)?
 What is your father's middle name?
 In which city did you meet your spouse?
 Which high school did your spouse attend?
 When is your father's birthday (MM/DD)?
 What is the first name of your mother's youngest sibling?
 In which city was your grandmother born (father's mother)?

6. Select **Continue** on the **Security Features** screen. Select a question from each drop-down field, and then input an answer. Answers are not case-sensitive.
7. Select **Submit**, and then select **Confirm** on the **Settings Modification** screen. If needed, **Edit** the answer before selecting **Confirm**. Once you select **Confirm**, you cannot modify questions and answers.

Settings Modification (optional)

If you would like to change the verification information you previously selected, please do so. It is not required that you change your information.

Question One: What is your spouse's middle name?
 Answer: Jane

Question Two: What was the name of your first pet?
 Answer: Buddy

Question Three: In which city did you meet your spouse?
 Answer: Anytown

8. Enter or verify the email address on file, and then select **Submit**. You have now successfully logged on and set up your cash management credentials. For subsequent logons, access cash management features using the credentials you just established.

Logging On to Cash Management

(You must have created your cash management credentials before you can follow these steps.)

1. Enter the ID, and then select **Submit**.

Login to Online Banking

Company Administrator Activities

Users

Use this submenu to add, edit, or delete Cash Management users. Only Cash Management users set up as administrators are able to edit other Cash Management users. **Options available to Cash Management users with administrative rights may include:**

- **Add:** Adds a user's email address so that the system can send the single sign-on (SSO) verification email to the cash user.
- **Send:** Sends the SSO setup email to assist users who no longer have access to the email or the link within the email. Once selected, the status then updates. If the user is pending approval, **Send** does not appear.
- **Resend:** Resends the SSO setup email to assist users who no longer have access to the email or the link within the email. Once selected, the status then updates.
- **User Settings:** From the **Select Option**, cash management administrators can edit Cash Management user information and function availability.
- **Default Settings:** From the **Select Option**, cash management administrators can edit access rights and accounts for which the Cash Management user has access.
- **Account Settings:** From the **Select Option**, cash management administrators can edit the default settings for a specific account.
- **Delete:** From the **Select Option**, cash management administrators can delete Cash Management users.

Creating New Cash Management Users

1. Go to **Cash Management > Users > New CM User**.
2. Complete the fields. Selected fields are defined in the following list. Available fields are based on configured permissions
 - **Administration:** Select one of the options to edit administrative functionality.
 - Select **Yes** to give full administrative access and functionality.
 - Select **No** to restrict any administrative access or functionality.
 - Select **Partial** to give partial administrative access and functionality.
 - Select **View** to give view-only administrative access and functionality.

- **Wire PIN:** Enter the PIN used for transmitting outgoing domestic wires.
- **View Position/Activity Report:** Select this check box to allow the cash user to view Cash Management activity.
- **Hold User:** Select this check box to prevent the Cash Management user from having access to Online Banking. In most instances, this check box is cleared, particularly when adding a Cash Management user.
- **ACH Limit:** Enter the maximum amount that this cash user can initiate per calendar day.
- **Wire Limit:** Enter the maximum transfer limit allowed per wire.
- **Transfer Limit:** Enter the maximum transfer limit allowed per fund transfer.
- **Display/Download ACH:** Select this check box to allow the cash user to view ACH batches and download batch information in PDF or NACHA format.
- **Work with ACH:** Select this check box to allow cash users to create and modify ACH batches.
- **Quick Edit ACH Only:** Select this check box to restrict ACH batch edit to quick edit only. **CAUTION:** Only one ACH edit entitlement, either **Work with ACH** or **Quick Edit ACH Only**, can be selected.
- **Import Record:** Select this check box to allow cash users to upload a fixed-position, CSV, or tab-delimited file into a batch. The file can only contain transaction items.
- **Full ACH Control:** Select this check box to allow a cash user to take multiple actions within a batch without requiring action from a second cash user. If this check box is cleared, dual control is enabled so that the cash user cannot take multiple actions within a batch without receiving assistance from a second cash user.
- **Update Record:** Select this check box to allow cash users to modify only the dollar amount of transactions within a batch by uploading a fixed-position, CSV, or tab-delimited file.
- **Initiate ACH:** Select this check box to allow cash users to send an ACH batch to the financial institution for processing.
- **Upload ACH:** Select this check box to allow cash users to upload a NACHA formatted file.
- **Restricted Category Access:** Select this check box to allow cash users to create and view restricted batches/categories.
- **Delete ACH:** Select this check box to allow the cash user to remove an ACH batch.
- **Initiate Same Day ACH:** Determine whether to allow Cash Management users to initiate same day ACH batches.
 - **Select** this check box to allow Cash Management users to initiate same day ACH batches. When the entitlement is selected **Same Day ACH** appears as an option for the effective date fields on the **Initiate Batch/Category** and **Quick Initiate** screens.
 - **Clear** this check box to restrict Cash Management users from initiating same day ACH batches. This check box is cleared by default. When the entitlement is cleared **Same Day ACH** does not appear as an option for the effective date fields on the **Initiate Batch/Category** and **Quick Initiate** screens.
 - You must select the **Initiate ACH** entitlement if you select **Initiate Same Day ACH** because marking a batch as same day ACH is done at batch initiation.

3. Select **Submit**.

The new cash user is placed in a **Pending Approval** status. Once the financial institution approves the new user, the user is sent the Single Sign-On (SSO) setup email. The user follows the prompts within the email to establish their logon credentials.

Managing Cash Management Users

1. Go to **Cash Management > Users > CM User List**.
2. Choose a situation and follow the corresponding steps.

Situation	Steps
Editing User Settings	<ol style="list-style-type: none"> 1. Select User Settings from the Select Option list next to the desired user. 2. Edit the fields, as necessary. Selected fields are defined in the following list. Available fields are based on configured permissions: <ul style="list-style-type: none"> • Administration: Select one of the options to edit administrative functionality. <ul style="list-style-type: none"> ○ Select Yes to give full administrative access and functionality. ○ Select No to restrict any administrative access or functionality. ○ Select Partial to give partial administrative access and functionality. ○ Select View to give view-only administrative access and functionality. • Wire PIN: Enter the PIN used for transmitting outgoing domestic wires. • View Position/Activity Report: Select this check box to allow the cash user to view Cash Management activity. • Hold User: Select this check box to prevent the Cash Management user from having access to Online Banking. In most instances, this check box is cleared, particularly when adding a Cash Management user. • ACH Limit: Enter the maximum amount that this cash user can initiate per calendar day. • Wire Limit: Enter the maximum transfer limit allowed per wire. • Transfer Limit: Enter the maximum transfer limit allowed per fund transfer. • Display/Download ACH: Select this check box to allow the cash user to view ACH batches and download batch information in PDF or NACHA format. • Work with ACH: Select this check box to allow cash users to create and modify ACH batches. • Quick Edit ACH Only: Select this check box to restrict ACH batch edit to quick edit only. <p>CAUTION - Only one ACH edit entitlement, either Work with ACH or Quick Edit ACH Only, can be selected.</p> <ul style="list-style-type: none"> • Import Record: Select this check box to allow cash users to upload a fixed-position, CSV, or tab-delimited

file into a batch. The file can only contain transaction items.

- **Full ACH Control:** Select this check box to allow a cash user to take multiple actions within a batch without requiring action from a second cash user. If this check box is cleared, dual control is enabled so that the cash user cannot take multiple actions within a batch without requiring action from a second cash user. If this check box is cleared, dual control is enabled so that the cash user cannot take multiple actions within a batch without receiving assistance from a second cash user.
- **Update Record:** Select this check box to allow cash users to modify only the dollar amount of transactions within a batch by uploading a fixed-position, CSV, or tab-delimited file.
- **Initiate ACH:** Select this check box to allow cash users to send an ACH batch to the financial institution for processing.
- **Upload ACH:** Select this check box to allow cash users to upload a NACHA formatted file.
- **Restricted Category Access:** Select this check box to allow cash users to create and view restricted batches/categories.
- **Delete ACH:** Select this check box to allow the cash user to remove an ACH batch.
- **Initiate Same Day ACH:** Determine whether to allow Cash Management users to initiate same day ACH batches.
 - **Select** this check box to allow Cash Management users to initiate same day ACH batches. When the entitlement is selected Same Day ACH appears as an option for the effective date field on the Initiate Batch/Category and Quick Initiate screens.
 - **Clear** this check box to restrict Cash Management users from initiating same day ACH batches. This check box is cleared by default. When the entitlement is cleared Same Day ACH does not appear as an option for the effective date fields on the Initiate Batch/Category and Quick Initiate screens.
 - You must select the **Initiate ACH** entitlement if you select **Initiate Same Day ACH** because

	<p>marking a batch as same day ACH is done at batch initiation.</p>
<p>Editing Default Settings</p>	<ol style="list-style-type: none"> 1. Select Default Settings from the Select Option list next to the desired user. 2. Edit the fields, as necessary. Selected fields are defined in the following list. Available fields are based on configured permissions. <ul style="list-style-type: none"> • Transaction Inquiry: Select this check box to allow inquiry about transactions. • Define Non-Rep Wires: Select this check box to allow defining of non-repetitive wires. • Upload Positive Pay: Select this check box to allow the user to upload a positive pay file to the core. • Edit Non-Rep Wires: Select this check box to allow editing of non-repetitive wire transactions. • Work Positive Pay Items: Select this check box to allow Positive Pay items to be worked. • Current Day Balance: Select this check box to allow the current day balance information to be viewed. • Define Rep Wires: Select this check box to allow defining of repetitive wires. • Prior Day Balance: Select this check box to allow the prior day balance information to be viewed. • Edit Rep Wires: Select this check box to allow editing of repetitive wire transactions. • Stop Inquiry: Select this check box to allow inquiry about a stop payment. • Stop Additions: Select this check box to allow the user to add stop payment requests. • Transfers: Select this check box to allow initiation of funds transfers. • Transmit Wires: Select this check box to allow transmission of wires. • Bill Pay: Select this check box to allow the user to pay bills. • No Balance View: Select this check box to restrict cash users' view of any accounts' balance information while viewing transactions on the <i>Dashboard</i>, <i>Account Listings</i>, and <i>Account Transactions</i> screens. This check box must be selected if No Balance View is selected on any account in the Account Settings. 3. Select Submit.
<p>Editing Account Level Settings</p>	<ol style="list-style-type: none"> 1. Select Account Settings from the Select Option list next to the desired user. 2. Edit the fields, as necessary. Selected fields are defined in the following list. Available fields are based on configured permissions.

	<p>Fields in Account Settings mirror those in Default Settings, with the following exceptions:</p> <ul style="list-style-type: none"> • Transfer To: Select this check box to allow the transfer of funds to an account. • Transfer From: Select this check box to allow the transfer of funds from an account. • View Transfers: Select this check box to allow viewing of transfers. • No Balance View: Select this check box to restrict cash users view of any accounts' balance information while viewing transactions on the <i>Dashboard, Accounts Listing, and Account Transactions</i> screens. If this check box is selected, No Balance View must also be selected in the Default Settings. <p>3. Select Submit.</p>
Deleting Cash Users	<p>1. Select Delete from the Select Option list next to the desired user</p>

Resetting a Cash Management User Password

If you are a cash user that has access to the **Cash Management > Users** tab, then you can reset cash users' passwords. If you do not have access to this tab, contact your financial institution to reset cash users' passwords.

1. Go to **Cash Management > Users**.
2. Select **User Settings** from the **Select Option** list next to the desired user.
3. Enter a new password, and then select **Submit**. The cash user's password has been reset.
4. Inform the cash user of the temporary password. The cash user is then prompted to change this password upon their next logon.

ACH (Automated Clearing House)

The ACH option allows you to:

- Create ACH batches
- Edit Batch Information
- Initiate ACH
- Send prenote transactions
- Send tax payments
- View ACH history

To access ACH, select the **Cash Manager** tab and click **ACH**.

The ACH module allows you to pay or collect money from individuals or companies. For example, you could send a payroll file or collect monthly dues from individuals using ACH. ACH capabilities depend on your agreement with the financial institution.

Getting Started with ACH

To get started, you must create a batch for a specific ACH company. A batch serves as a template that you can use on multiple occasions.

If you or another cash user in your company has previously created an ACH batch, the following status codes may appear on the **ACH Batch List** screen under the **Status** column next to each category.

- **Ready:** The batch has been created and is ready to be updated, changed, initiated, or deleted.
- **Initiated:** The batch has been sent to the financial institution and is waiting to be transmitted to the ACH processor terminal. During this status, a batch cannot be edited or deleted until it has been processed and returned to a *Ready* status.
 - **CAUTION** - Do not delete an ACH batch that is in Initiated status because this causes the financial institution not to receive the ACH batch. In addition, do not delete the batch until the status has returned to Ready.
- **Processed:** The financial institution has processed the ACH batch and it can no longer be updated until end-of-day processing is complete. The batch returns to a *Ready* status after end-of-day processing.
- **Uploaded:** The ACH batch information was uploaded directly from another accounting software system using the ACH upload feature.

Creating an ACH Batch: Manually

If you are unable to import or upload a batch, you can manually enter the batch information.

1. Go to **Cash Management > ACH**.
2. Select the desired company for **Create a New Batch For**.

3. Complete the following fields.

New Batch

Batch Name: Payroll_2016

Company: [Redacted]

Discretionary Data: PAYROLL

SEC Code: PPD - Prearranged Payments and Depo

Company Id: 123456789

Entry Description: PAYROLL

Restrict Batch:

Buttons: Cancel, Submit

- **Batch Name:** Enter the ACH batch name. This value distinguishes the batch for the Cash Management user's benefit when viewing batches on the *ACH Batch List* screen.

- **SEC Code:** Select the type of batch you are creating.
- **Category:** Select the ACH SEC code associated with the ACH batch.
- **Company:** The ACH company for which the ACH batch is being created. This value prefills based on the associated value indicated in the core.
- **Company ID:** Enter the identification number for the ACH company, which is usually a tax ID.
- **Discretionary Data:** Enter the purpose of the ACH batch for the Cash Management user's and the financial institution's benefit.
- **Entry Description:** Enter the purpose of the ACH batch, which appears to the recipient.
- **Restrict Batch:** Select this check box to prevent Cash Management users without restricted batch access from viewing/working with the batch.

4. Select **Submit**.

5. Complete transaction information

- **Name:** Enter the recipient of the transaction.
- **Addenda Type:** Select the type for the additional information to be transmitted with this record.
- **ID Number:** Enter the recipient identification (e.g., employee number).
- **Addenda:** Enter the additional information to be transmitted with this record.
- **Amount:** Enter the dollar amount of the transaction.
- **Prenote:** Select this check box to create a separate batch that contains a zero dollar, or test, transaction to verify the recipient's account information is correct.
- **Routing:** Enter the receiving financial institution's routing number. A search option is also available.
- **Account Type:** Select the type of receiving account.
- **Account Number:** Enter the recipient's account number.
- **Transaction Type:** Select whether the transaction is a *Debit* or *Credit*.
- **Status:**
 - Select *Hold* to prevent the transaction from being included within the batch totals.
 - Holding this transaction allows you to initiate the batch without including the transaction, if needed.
 - Select *Active* to include the transaction in the batch.

6. Choose one of the following options:

- Select **Quick Add** to save this record and enter a new record.

- Select **Add Multiple** to add up to 15 records to the batch. When in this view, select **Quick Add** to save your entered records and continue to add more.

	Name	ID #	Routing #	Account #	Chk Sav	Amount	DR/CR
1	1500.00	...
2	1500.00	...
3				
4				
5				
6				

7. Select **Submit**. If dual control is enabled, you cannot initiate an ACH batch you have created, except when another user has since edited the batch. Only after the edit occurs can you initiate the created batch.

You have successfully created an ACH batch.

Creating an ACH Batch: NACHA Upload

If you have software that can create a NACHA file formatted ACH batch for you, you can upload the batch into Internet Banking.

Depending on your financial institution’s settings, uploaded ACH batch files are validated in their entirety. If validation errors are found within the uploaded ACH batch, up to the first 50 validation errors appear. You can view and resolve validation errors in the uploaded ACH batch file, and then re-upload the updated file. Selecting **Show More** expands the error details.

1. Go to **Cash Management > ACH > Upload**.

2. Search for the file. Files with a .txt file extension are recommended.
3. Select **Upload**. The uploaded file status appears. Once in an Uploaded status, the batch appears on the **Batch Listing** screen.
4. Go to the **Batch Listing** screen. A generic batch name is generated based on a sequence number.

Status	Batch Name	Type	Company	Process Date	Debit	Credit
Uploaded	0000049	PPD	...		\$1,650.00	\$1,650.00
Ready	0000037	PPD	...		\$7,680.00	\$7,680.00
Uploaded	0000028	PPD	...		\$1,650.00	\$1,650.00
Ready	VDay Bonus	PPD	...	05/16/2014	\$0.00	\$1,000.00

5. From the **Select Option** drop-down menu, select **Edit** to customize the uploaded batch name. You have successfully created an ACH batch by uploading a NACHA file.

Creating an ACH Batch: Import

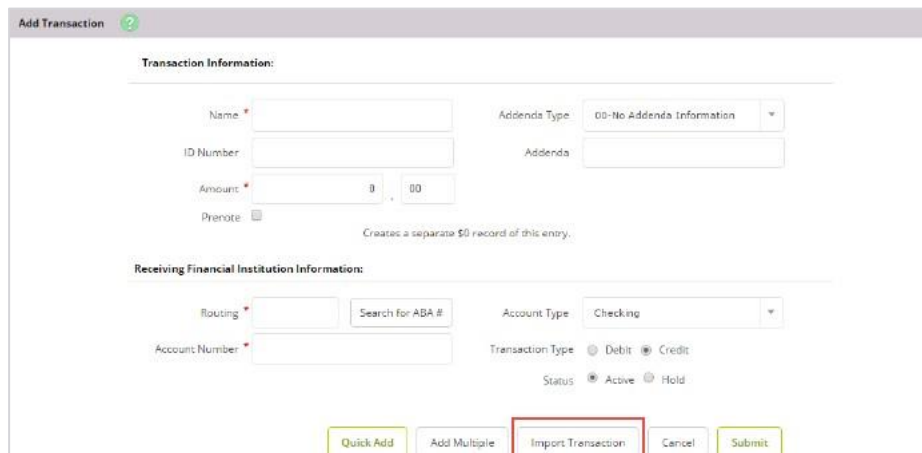

Import allows a cash user to import a record file in either CSV, fixed position, or tab-delimited file types. You can import transactions into a new or existing batch.

Before you can import your first ACH batch file, you must establish the **Import Layout** submenu's fields. For more information on how to work with this submenu, review the *Editing the Import Layout Settings* topic.

1. Go to **Cash Management > ACH**.
2. Select the desired company for **Create a New Batch For**

3. Complete the fields, and then select **Import Transaction**.

4. Select the **Import File Type**:

- NACHA File
- CSV File
- Fixed Position File
- Tab-Delimited File

5. Select the desired file, and then select **Import**. You have now successfully imported an ACH batch. You can also import files into an existing batch by selecting **Import** from the **Select Option** drop-down menu, and then following steps 4 and 5.

Editing the Import Layout Settings

Use the **Import Layout** submenu to import an ACH transaction format.

1. Go to **Cash Management > ACH > Import Layout**.
2. Select the upload format.
 - Fixed Position File Layout Example:

The screenshot shows the 'Fixed Position File Layout' configuration form. At the top, there is a dropdown menu labeled 'Select Upload Format to Create/Edit:' with 'Fixed Position File Layout' selected. Below this, there are two columns of fields. The first column includes 'Name:' (Begin: 1, End: 20), 'ID Number:' (Begin: 32, End: 41), and 'Routing Number:' (Begin: 52, End: 60). The second column includes 'Account Number:' (Begin: 21, End: 31), 'Amount:' (Begin: 41, End: 51), and '* Transaction Code:' (Begin: , End:). A note states: '*Note: If your file does not contain Transaction Codes, the following fields are required:'. Below the note, there are four more fields: 'Account Type:' (Begin: 61, End: 61), 'Checking Equals:' (C), 'Savings Equals:' (S), 'Transaction Type:' (Begin: 62, End: 63), 'Debit Equals:' (DR), and 'Credit Equals:' (CR). At the bottom right, there are three buttons: 'Save', 'Reset', and 'Cancel'.

- CSV File Layout Example:

The screenshot shows the 'CSV File Layout' configuration form. At the top, there is a dropdown menu labeled 'Select Upload Format to Create/Edit:' with 'CSV File Layout' selected. Below this, there are two columns of fields. The first column includes 'Name:' (1), 'ID Number:' (2), and 'Routing Number:' (3). The second column includes 'Account Number:' (4), 'Amount:' (5), and '* Transaction Code:' (). A note states: '*Note: If your file does not contain Transaction Codes, the following fields are required:'. Below the note, there are four more fields: 'Account Type:' (6), 'Checking Equals:' (C), 'Savings Equals:' (S), 'Transaction Type:' (7), 'Debit Equals:' (DR), and 'Credit Equals:' (CR). At the bottom right, there are three buttons: 'Save', 'Reset', and 'Cancel'.

3. Complete the fields.
4. Select **Save**.

Initiating ACH Batches

To initiate batches, you must have the cash user **Initiate ACH** entitlement.

1. Go to **Cash Management > ACH**.
2. Choose a situation and follow the corresponding steps. You can only initiate batches containing records, and the batch must be in a Ready status.

Situation	Steps
Initiating a Single Offset Batch	<ol style="list-style-type: none"> 1. From the Select Option drop-down menu, next to the desired batch, select Initiate. 2. Complete the fields. Selected fields are defined in the following list. <ul style="list-style-type: none"> • Select Effective Date: Select the desired effective date, which must be a business day. If available, select Same Day ACH to mark the batch as same day to settle qualifying batch transactions same day. • Select Offset Account: Select an offset account. This field appears if the selected ACH batch is for an ACH company set up to require the use of an offset account. An ACH offset does not apply to prenote ACH batches initiated because the totals within these batches are always zero debits/zero credits. • Reset Amounts to \$0.00 After Processing Batch: Select this check box to reset the amounts of the ACH records contained in the initiated batch back to zero dollars after the batch has been initiated. 3. Select Initiate.
Initiating Multiple Offset Batches	<ol style="list-style-type: none"> 1. Select check boxes next to several boxes, and then select Initiate Selected. 2. Complete the fields. Selected fields are defined in the following list. <ul style="list-style-type: none"> • Apply Effective Date to All Batch/Category Records: Select this check box, and then select the desired effective date to apply to all records selected for quick initiate. Select Same Day ACH to mark the batches as same day to settle qualifying batch transactions same day. • Effective Date: Select the desired effective date, which must be a business day. Select Same Day ACH to mark the batch as same day to settle qualifying batch transactions same day. • Select Offset Account: Select an offset account. This field appears if the selected ACH batch is for an ACH company set up to require the use of an offset account. An ACH offset does not apply to prenote ACH batches because the totals within these batches are always zero debits/zero credits. • Reset Amounts to \$0.00 After Processing Batch: Select this check box to reset the amounts of the ACH records contained in the initiated batch back to zero dollars after the batch has been initiated.
Initiating Same Day ACH Batches	<ol style="list-style-type: none"> 1. Locate and select the desired batches. Use the check box to the left of the batch names to select multiple batches. 2. Select Initiate Selected. 3. Select Same Day ACH in the Select Effective Date drop-down menu. 4. Complete the Select Offset Account fields for each batch, if applicable. 5. Select Initiate. 6. Select OK on the Same Day ACH Confirmation dialog box.

Prenote Transactions

A prenote transaction allows you to send a zero dollar test transaction to verify that the recipient's account information is correct before sending the actual credit or debit transaction. With NACHA, prenote transactions have specific transaction code requirements which restrict a zero dollar transaction amount from being sent.

A prenote is created by adding the transaction to the batch that ultimately includes the transaction. That transaction is flagged for prenote, and then Cash Management creates a separate batch containing the actual prenote record.

Creating a Prenote Transaction

Create a regular batch that you will work with in the future. From there, you can create prenote transactions within your affected batch.

1. Go to **Cash Management > ACH**.
2. From the **Select Option** drop-down menu, next to the desired batch, select **Edit**.

Status	Batch Name	Type	Company	Process Date	Debit	Credit
Uploaded	Salary Payroll	PPD	Training Inc.		\$0.00	\$1,500.00
Ready	Invoice	PPD	Train LLC		\$2,000.00	\$2,000.00
Uploaded	Bonus	PPD	Training Inc.		\$0.00	\$2,100.00
Ready	Hourly Payroll	PPD	Train LLC		\$6,000.00	\$6,000.00
Total					\$8,000.00	\$11,600.00

3. Select **Add Transaction**.

Name	ID Number	Account	Routing	Amount	CR/DR	Hold
	G1223	112233		\$1,500.00	CR	<input type="checkbox"/>
	M1122	9996		\$1,400.00	CR	<input type="checkbox"/>
	M2233	0098		\$1,300.00	CR	<input type="checkbox"/>
				Total Debits \$0.00	Total Credits \$4,200.00	

4. Complete the transaction information. Since Cash Management does not allow zero dollar transactions, enter a dollar amount. If the transaction amount is unknown, enter \$0.01.
5. Select **Prenote**.
6. Select **Hold**. When Hold is selected, the transaction is not included in the batch.

7. Select **Submit**.

Status	Batch Name	Type	Company	Process Date	Debit	Credit	
Uploaded	PNT-Salary Payroll	PPD	Training Inc.		\$0.00	\$0.00	Select option..
Uploaded	Salary Payroll	PPD	Training Inc.		\$0.00	\$1,500.00	Select option..
Ready	Invoice	PPD	Train LLC		\$2,000.00	\$2,000.00	Select option..

8. The prenote transaction is added to the batch but is not included in the batch totals because of the **Hold** status. Cash Management creates a separate prenote batch with PNT in the batch name. This prenote batch is listed on the batch list screen and can be initiated from here.

- **Initiate** the prenote batch to send the prenote transaction to your financial institution. Once the prenote batch is successfully originated, you can update the transaction amount and remove the **Hold** status. That transaction is then a part of the regular batch, and the originated PNT batch can be deleted.

Status	Batch Name	Type	Company	Process Date	Debit	Credit	
Ready	PNT-February Payroll	PPD	Neteller		\$0.00	\$0.00	Select option...
Ready	Payroll_2016	PPD	Neteller		\$0.00	\$4,500.00	Select option...
Ready	May Payroll	PPD	Chihuahua Rescue	09/16/2014	\$1,650.00	\$1,650.00	Select option...
Ready	JH Import	PPD	Chihuahua Rescue	09/16/2014	\$2,000.00	\$2,000.00	Select option...

Managing ACH Batches

1. Go to **Cash Management > ACH**.
2. Choose a situation and follow the corresponding steps.

Status	Batch Name	Type	Company	Process Date	Debit	Credit	
Ready	Fall Payroll	PPD	NetTeller Offset	02/29/2016	\$0.00	\$3,000.00	Select option..

Select the file type:</p> <ul style="list-style-type: none"> • Fixed Position File • Comma-Delimited File • Tab-Delimited File • Space-Delimited File <p>3. Select the file, and then select Upload</p>

Managing Tax Payments

Use the **Tax Payment** submenu to create an electronic tax payment record. The tax payment record created is included in the ACH batch listing. The treasury accepts Treasury Tax and Loan (TT&L) payments electronically from users who are enrolled with the Treasury Department.

1. Go to **Cash Management > ACH > Tax Payment**
2. Choose a situation and follow the corresponding steps.

Situation	Steps
<p>Adding Tax Payments</p>	<p>1. Complete the fields.</p> <ul style="list-style-type: none"> • Pay To: Select <i>Federal</i> or the desired state if making a state tax payment. • Batch: Enter a name to distinguish the tax payment batch for the customer's benefit. • Routing Number: Select Lookup to select the routing number associated with the financial institution that receives the tax payment. • Company Name: Select the ACH company name. • Tax Period: Select the month and year for the tax period. • Tax Code: Enter the code to indicate the tax payment type. • Taxpayer ID: Enter the company's Employer Identification Number (EIN). • Amount Type Code: Enter the associated amount type. Select Lookup to see available amount type code options. This field only appears for state tax payments. • Amount: Enter the dollar amount of the transaction. • Pay From Account: Select the account to debit for the offset transaction.

	<ul style="list-style-type: none"> • Tax Information ID 1: Enter the amount designated for Social Security. This field is optional. This field only appears for Federal tax payments. • Tax Information ID 2: Enter the amount designated for Medicare. This field is optional. This field only appears for Federal tax payments. • Tax Information ID 3: Enter the amount designated for withholding. This field is optional. This field only appears for Federal tax payments. <ol style="list-style-type: none"> 2. Select Quick Add to add the tax payment and enter a new record. 3. Enter the tax payments. 4. Select Submit.
Viewing Tax Payments	<ol style="list-style-type: none"> 1. In the Options column, next to the desired tax payment, select View.
Editing Tax Payments	<ol style="list-style-type: none"> 1. In the Options column, next to the desired tax payment, select Edit. 2. Edit the fields, as necessary. 3. Select Submit.
Deleting Tax Payments	<ol style="list-style-type: none"> 1. In the Options column, next to the desired tax payment, select Delete. 2. Select Delete.
Downloading Tax Payments	<ol style="list-style-type: none"> 1. In the Options column, next to the desired tax payment, select Download. 2. Select a download format: <ul style="list-style-type: none"> • List (PDF) - Select a field to sort by and the desired sorting order. • NACHA formatted file 3. Select Submit. 4. Select the download link.
Copying Tax Payments	<ol style="list-style-type: none"> 1. In the Options column, next to the desired tax payment, select Copy. 2. Enter a new name for the copied tax payment. 3. Select Submit.

- Add a Federal Tax Payment

The screenshot shows the 'Add Tax Payment' form with the following fields and values:

- Pay To: Federal
- Category: Tax FD, First Quarter
- Routing Number: [Redacted] Lookup
- Company Name: [Redacted]
- Tax Period: 03/16 mm/yy
- Tax Code: 94105 - Employer's Quarterly Tax Return Federal Tax Deposit
- Taxpayer ID: [Redacted]
- Amount: \$3,000.00
- Pay From Account: Payroll
- Tax Information ID 1: 1 Amount \$1,500.00
- Tax Information ID 2: 2 Amount \$1,000.00
- Tax Information ID 3: 3 Amount \$500.00

Buttons at the bottom: Quick Add, Submit, Cancel.

- Add a State Tax Payment

The screenshot shows the 'Add Tax Payment' form with the following fields and values:

- Pay To: Kansas
- Category: Tax KS, First Quarter
- Routing Number: [Redacted] Lookup
- Company Name: [Redacted]
- Tax Period: 03/01/2016 mm/dd/yyyy
- Tax Code: 04201 Lookup
- Taxpayer ID: [Redacted]
- Amount Type Code: P Lookup
- Amount: \$3,000.00
- Pay From Account: Operations

Buttons at the bottom: Quick Add, Submit, Cancel.

Viewing ACH History

Batch information is viewable after the batch is originated.

1. Go to **Cash Management > ACH > History**.
2. Review the columns. Select **View** to view a list of transactions included within the batch

The screenshot shows the 'ACH History' table with the following data:

Initiated	Effective	Batch	Type	Company	Debits	Credits	Offset Account	Confirmation Number
03/01/2016	03/21/2016	Payroll_2016	PPD	TRAIN O	\$0.00	\$4,500.00	xxxxxxxxxx4567 D	View 0004

Buttons: Return

- **Initiated:** The date the batch was initiated.

Wires

Use this submenu to view, transmit, create, edit, and delete wires based on both the user and account-level wire authorities assigned.

The following statuses may appear on the **Wires List** screen in the **Status** column.

- **Ready:** Wire is ready to be transmitted.
- **Initiated:** Wire has been initiated.
 - This status also appears if the initiated outgoing wire (single or repetitive) contains Office of Foreign Assets Control (OFAC) information. There is no visual indicator to the Cash Management user to show that the wire has been flagged for OFAC.
 - When a wire is initiated, the physical address is used if one is available for the originator address associated with that wire. If a physical address is not available, the CIF address is used.
- **Processed:** Wire was processed.
- **Next Day:** Wire was initiated after the cut-off time set for outgoing wires.

Creating Wire Instructions: Domestic Wires

These wire instructions can serve as a template that you use on multiple occasions, or you may use it only once. Once the wire is created, you transmit the wire which sends the information to the bank. The bank then sends out the wire.

1. Go to **Cash Management > Wires > Edit/Add**.
2. Select an account from the **View Wires For** drop-down, and then select **Add Wire**.

Status	Amount	Rep Code	Account Number	Receiving FI		
Pending	\$10.00	Single	4242	42424242	Edit	Delete

3. Complete the selected fields

Repetitive Wire/Code:

Amount: \$1,000.00

- **Wire Name:** Enter a descriptive name for the wire. This value appears on the various wire listing screens.
 - **Credit Account Number:** Enter the account to receive the wired funds.
 - **Credit Account Name:** Enter the name on the account receiving the wired funds.
 - **Credit Account Address:** Enter the address of the recipient for the wired funds.
 - **Receiving Bank ABA Number:** Enter the routing number of the financial institution where the wire is sent. Select **Search for ABA Number** to search for a financial institution. Selecting an ABA from the search option populates all remaining *Receiving Bank Information* fields.
 - **Receiving FI Name:** Enter the name of the financial institution where the wire is being sent.
 - **Receiving FI Address:** Enter the address of the financial institution where the wire is being sent, including the city, state, and ZIP.
 - **Remarks:** Enter special instructions for the wire. These remarks appear to the wire recipient.
 - **Save As Repetitive Wire:** Select this check box if the wire has particular instructions/remarks that are going to be used multiple times. For example, a cash user can send a wire to this person/company once a month. By indicating this wire is a repetitive wire, you do not have to recreate the wire each time. Enter a wire code to distinguish the wire. The code can be six alpha or numeric characters. Leave this check box cleared for one-time (single) wires.
 - **Amount:** Enter the dollar amount of the wire.
4. Select **Submit**. You have successfully created a domestic wire instruction. To transmit this wire, review information about transmitting wires.

Creating Wire Instructions: International Wires

These wire instructions can serve as a template that you use on multiple occasions, or you may use it only once. The fields associated with international wires can be used for international wires or for sending wires through a correspondent bank. Once the wire is created, you transmit the wire which sends the information to the bank. The bank then sends out the wire.

1. Go to **Cash Management > Wires > Edit/Add**.
2. Select an account from the View Wires For drop-down menu, and then select **Add Wire**.

Settings

Personal

If necessary, change the logon information in **Options > Personal**.

Modify Personal Settings

- Change the company email address (only accessible to Full or Partial Administrators). Only company administrators can change the cash user's email addresses.
- Change company mobile phone number for text alerts.
- Change watermark image to select a new image.

Modify Login Information

- Change the user name, password, and wire PIN.

Account

Cash users with the **Full** or **Partial** administrator permissions can change account names and the appearance order of the accounts.

Deposit Accounts ?

Select an Account Type: Deposit Accounts

Drag and drop the account to rearrange the display order. See [keyboard instructions](#).

Establishing Display Defaults

Use the **Display** submenu to establish permissions for what cash users can do with wires and set the amount of data that appears.

1. Go to **Options > Display**.
2. Edit the display defaults. Selected fields are defined in the following list. The fields that appear depend on your core system.

Establish Display Defaults ?

Accounts: 5 10 20 50 100 All

Transactions: Since Last Statement Last 7 days Last 15 days Last 30 days All Search History

ACH Batches: 10 20 50 100

ACH Transactions: 10 20 50 100

Wire Transfers: 10 20 50 100

Wires-Edit/Add: 10 20 50 100

Transfer History: Last 7 days Last 15 days Last 30 days Search History

ACH History: Last 7 days Last 15 days Last 30 days Search History

Wires History: Last 7 days Last 15 days Last 30 days Search History

Download Lines: One Line Two Lines Three Lines All Lines

Transfer Confirmation: Yes No

Submit

- **Download Lines:** Determine the number of transaction description lines that should be included when downloading transactions via **Transactions > Download:**
 - One Line
 - Two Lines
 - Three Lines
 - All Lines
- **Transfer Confirmation**
 - Select **Yes** to enable the transfer confirmation that appears after you enter and submit transfer information. Confirm the transfer before receiving a confirmation number.
 - Select **No** to disable the transfer confirmation. After you enter and submit the transfer information, the confirmation number appears instead of asking for a transfer confirmation.

3. Select **Submit**.

Alerts

Use this submenu to view all established alerts for your profile.

Available alerts on the **Alerts Listing** submenu include:

- **Current Event Alerts:** Set up the items or watches that trigger alerts. Select event alerts to be sent to Cash Management and other online users when specific transactions, such as wire transmissions, ACH EDI transactions, and ACH batches are initiated.
 - When you log on, an event alert indicator appears on the Online Banking > **Accounts** screen. Event alert messages for wire transmissions or ACH batches initiated before the alert was set up do not appear.
- **Current Balance Alerts:** Set up an alert to be notified when a balance is above or below a set amount.
- **Current Item Alerts:** Set up an alert to be notified when a specific item number clears.
- **Current Personal Alerts:** Set up an alert for a specific date or create a personalized alert message.
